# The "Want" Column.

Quite a feature of our daily paper is the "Went" column. We insert five lines for two days for twenty-five cents. There is a letter or bulletin-board in our counting-room, where answers are placed, and the advertiser calls during the day and obtains numerous letters addressed to his initials. This cheap method of saving shoe-leather in running over the town In search of what one needs is a wonderful time and labor-saving expedient. Try it, good people. This familiar course of expressing one's wants should be generally adopted. The PARNY PRESS is very extensively circulated, and is just the vehicle needed for advertisers. Its cheapness brings it into families who, unfortunately, have never taken a daily newspaper. Its worth, we hope, gives it a passport to the homes of our best citizens.

#### The National Cricket Match Postponed.

We regret that from the lateness of the season, it is likely that the eleven chosen players of England may not this fall reach the West, and thereby give a general impulse to the healthful sport of cricket in the United States. The St. George's Club of New York, under whose auspices the English players were to visit New York, have advised the postponement of the proposed match until good weather in the spring of next year. This will be a great disappointment to American cricketplayers.

Much, it would appear, is expected from the Congress, which we hall with our best wishes, but we strongly doubt that the Congress will obtain better conditions for Italy. It would not be right to ask from the great powers important concessions without offering equitable compensations. War would be the only way to resolve the difficulty, but Italy must be aware that one power alone maltes war for an idea, and that is France. France has accomplished her missien."

King Victor Emanuel received the Tuscan delugation on the 3d inst. In reply to their address he thanked them for their expressed wish for annexation, but said its accomplishaent can only take place by the negotiations which are about to begin on the affairs of Italy He would support the cause of Tuscany before the powers, and hoped that Europe would not refuse to practice toward Tuscany that work of redressing grievances which it, under less favorable circumstances, practiced toward Greece, Belgium and the Danubian Principalities The vote in Parma on the annexation to Piedmont resulted in its favor by 63,000 against
